

## Product information

### Dispensing machine B-100

The B-100 is a compact mixing and dispensing machine for processing one and multi-component resins. It is qualified for small series applications and is characterized by its various variation possibilities. Precise time control and special dispensing pumps provide an excellent repeatability.

- Static and dynamic mixing possible
- Adjustable dispensing time
- Potlife monitoring
- Working pressure monitoring

## Application examples of the B-100

### B-100 with hand gun

### B-100 with working table

### B-100 monted on rolls

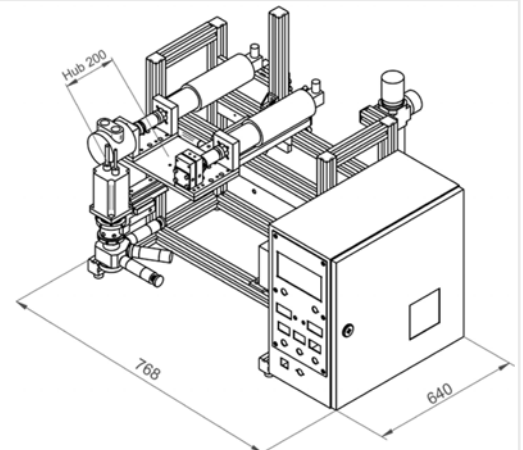

### B-100 with 3-axis system

## Technical data

Size (w x h x d):	700 x 680 x 640 mm
Weight:	appr. 55 kg (without vessels)
Sliding unit (y-axis):	200 mm manual
Controller:	Time controller BARTEC 2.1
Electrical power supply:	220 V / 16 A / 50 Hz
Air pressure supply:	> 6 bar

## Layout

## Options

- Variable material conditioning
- Vessel agitator
- Electrical heating for vessels
- 3-axis table-top robot 200 x 200 x 50 mm (only for 1C und 2C static mixing)
